

More Dart Trivia

In Dec. 1977 The World Darts Federation recommended a throwing distance of 7' 9 1/4" • The average speed of a dart hitting a board is around 64kph (40mph). • John Reader of Sussex recorded the first 180 in 1902. • The first man to sell matched sets of brass darts was a Hungarian salesman of boiler linings named Frank Lowy. He went on to found Unicorn darts, still the largest darts manufacturers in the world. • In 1896, Brian Gamlin, a British carpenter, arranged the numbers on the dartboard as we see them still today. • In tournament play, the longest time a player may be allowed between shooting individual darts is 3 minutes. • A player is only allowed 9 practice darts before commencing a match. • The maximum allowable weight and length for a dart is 12 inches and 50 grams. •
